

ERRATA

Bianucci, L., Denman, K., Ianson, D., 2011. Low oxygen and high inorganic carbon on the Vancouver Island Shelf, *Journal of Geophysical Research*, 116:C07011, doi:10.1029/2010JC006720.

Equation A6: The parameter v^* should read v_{max}

Equation A8: Production of oxygen by primary production should distinguish new and regenerated primary production.

The first term in the equation should read:	Instead of:
$PQn v_{max} f_I L_{NO3} P R_{C:N} + PQa v_{max} f_I L_{NH4} P R_{C:N}$	$PQa v P R_{C:N}$
